DINING CHAIR CATALOG

ABOUT US

Continuing decades of long-standing family tradition specializing and leading in the furniture industry in Scandinavia, the founders of Lio Collection, Christos Vasileois Liokouras and his wife Charlotte, have always adhered to their life-long paramount philosophy of "Customer Satisfaction is Always Number One".

Having been active in the furniture industry for over 35 years based in Europe, sourcing and manufacturing worldwide, Christos and Charlotte foresaw that the future of the supply, sourcing and manufacturing element of the industry, coupled with the rapidly growing local economies, was destined to be in Asia. Thus, in 2006, Christos and Charlotte have taken the decision from Scandinavia to the beautiful Island of the Gods - Bali, where talent and creativity are abundant and endless.

This move was made in order to enable Lio Collection to provide a better fully comprehensive and efficient service to its customers, being in proximity to sources of raw materials and manufacturing facilities, including Lio's own state-of-the-art 12,000 M2 furniture factory, as well as its warehousing and distribution facilities in Java.

Over the years, Bali has developed into the "Showroom" of Indonesia's versatile and exquisite creative industries, and Lio Collection is proud to be firmly positioned at its centre of activities.

Christos and Charlotte, together with the entire Lio Collection team, are looking forward to warmly welcoming you to our various showrooms, and to join our ever-expanding Lio family worldwide.

Christos and Charlotte

KENNEDY ARM CHAIR WITH RUSH SEAT

ITEM NUMBER : 124997
MATERIAL : SUNGKAI WOOD
COLOR : NATURAL
SIZE : 58*56*78H

A full-page background image of a forest. The scene is filled with numerous tall, thin, vertical tree trunks that create a strong sense of depth and texture. The lighting is dappled, with sunlight filtering through the canopy, creating bright spots and deep shadows. In the lower-left foreground, there is a small, rustic wooden platform or structure made of branches and planks, partially obscured by the trees. The overall color palette is dominated by the browns and greys of the tree bark, with hints of green from the foliage in the background.

TEAKWOOD MATERIALS

Teak wood is known for its durability, strength and high resistance. We value how furniture from teak can last for generations and how it can be reclaimed after use and give life to new furniture.

Via the right certificates, we ensure that we only use legal timber from Indonesia and support sustainable forestry practices.

SIZE : 59*63*77H

A man wearing a yellow t-shirt, blue shorts, and a purple headscarf is standing in a large pile of rattan sticks. He is holding a long, thin rattan stick vertically. The background is a dense wall of similar rattan sticks, creating a textured, golden-brown backdrop. The ground is also covered with a layer of rattan sticks.

RATTAN MATERIALS

Rattan is a sustainable and natural material that grows incredibly fast.

We use the outer layers of the rattan by peeling it off and use it for weaving, whereas we use the core of the rattan for furniture. The core of the rattan is greatly durable and flexible and thus a great material for creating creative and beautiful furniture.

The image shows a close-up of two pieces of rattan weaving. The piece in the foreground is a light-colored, possibly bleached, rattan with a complex, interlocking star-like pattern that creates a series of small, irregular holes. The piece in the background is a darker, natural-colored rattan with a simpler, more regular diamond or oval-shaped hole pattern. The two pieces are layered, with the lighter one in front and the darker one behind, creating a sense of depth and texture.

ITEM NUMBER : 123082
MATERIAL : TEAK WOOD, UPHOLSTERY
COLOR : NATURAL
SIZE : 46*47*78H

A close-up, macro shot of a synthetic rattan material. The image shows a complex, repeating woven pattern of thick, brown, curved strands. These strands are interlaced with thinner, white or light-colored vertical lines, creating a textured, three-dimensional effect. The lighting is soft, highlighting the smooth surface of the brown strands and the sharp edges of the white lines. The overall composition is a dense, rhythmic grid of these woven elements.

SYNTHETIC RATTAN

GENEVA ARMCHAIR WITHOUT CUSHION
